

PALLET TRUCK

WALKIE ELECTRIC
PALLET TRUCK

Manufactured in the U.S.A., these trucks are costumed engineered and designed to meet your specific towing application.

The heavy duty **Sroka** electric pallet trucks are the most rugged, no-nonsense workhorses in the industry. **Sroka** offers flexible design, features and capacities up to 30,000 pounds (anything larger, please consult the factory).

Using time tested designs based on years of heavy duty applications, our pallet trucks can be relied upon day after day. Custom pallet jack options include fork length, fork width, and width over forks and fork profile.
